RE: Memory Lane Poultry, LLC Animal Feeding Operation
NDEQID: 110085
Program ID: LWC 5-1096
Subject: **Modified Construction and Operating Permit Issued**
NE 1/4, NE 1/4, Section 32, Township 19N, Range 08E, Dodge County
Consultant: Nutrient Advisors

Dear Mr. Schafersman:

Enclosed is your modified Construction and Operating Permit for the livestock confined at the above animal feeding operation. This permit is issued by the Nebraska Department of Environmental Quality (Department) in response to your application received on September 4, 2018, with an addendum received on November 9, 2018, requesting an increase to the previously permitted headcount for the operation. This permit supersedes the Construction and Operating Permit issued on December 14, 2017.

On December 6, 2018, the Department received your correspondence indicating the construction of the dry litter barns had been completed. The Department hereby grants approval to populate the barns and begin feeding livestock. Department staff will conduct periodic compliance inspections of your operation.

Your medium animal feeding operation is not required to obtain coverage under a National Pollutant Discharge Elimination System (NPDES) Permit for Concentrated Animal Feeding Operations based on your current operation. NPDES Permit coverage of your operation may be required in the future if your operation discharges into waters of the State or if required due to statutory or regulatory changes.

The issuance of this permit does not remove your responsibility to comply with any Natural Resources District, county or local zoning regulations. This animal feeding operation shall be operated and maintained according to the approved application and addendum, this Construction and Operating Permit and the requirements in Title 130, *Livestock Waste Control Regulations*. These documents include operating and maintenance requirements, best management practices and requirements for monitoring, reporting and land application of the waste.

Read and become familiar with these documents, as you will be held responsible for your operation's compliance with these requirements. Violation of Title 130 requirements may result in fines, penalties or removal of the livestock from the operation until compliance is met. You are responsible for preventing any runoff or discharge of livestock waste to waters of the State.

If you have any questions, please contact Kevin Franzluebbbers at (402) 471-6687 or myself at (402) 471-4239.

Sincerely,

for Cay Ewoldt, Supervisor
