RE: Randy Kreikemeier Livestock Concentrated Animal Feeding Operation  
NDEE ID: 68373  
Program ID: LWC 5-1015  
**Subject: Construction and Operating Permit Issued**  
NE ¼, NW ¼, Section 35, Township 20N, Range 05E, Dodge County  
Consultant: Nutrient Advisors

Dear Mr. Kreikemeier:

Enclosed is your Construction and Operating Permit for livestock waste control facilities (LWCF) at the above concentrated animal feeding operation. This permit is issued by the Nebraska Department of Environment and Energy (Department) in response to your application for Major Modification received on January 30, 2020, with an addendum received on March 16, 2020. The combination of this current application and your June 10, 2005 application has been determined by the Department to meet the Title 130, *Livestock Waste Control Regulations* requirements for a complete application submittal. This permit supersedes the Construction Approval issued on September 20, 2005.

The Permittee, authorized representative or an employee of the operation is required to obtain land application training within 180 days of receiving permit coverage, unless one of these persons satisfactorily completed such training within the past five (5) years. Department records indicate your current training is valid until March 6, 2023. Additional training must be completed every five (5) years.

Your large concentrated animal feeding operation is not required to obtain coverage under a National Pollutant Discharge Elimination System (NPDES) Permit for Concentrated Animal Feeding Operations based on your current operation. NPDES Permit coverage of your operation may be required in the future if your operation discharges into waters of the State or if required due to statutory or regulatory changes.

The issuance of this permit does not remove your responsibility to comply with any Natural Resources District, county or local zoning regulations. This concentrated animal feeding operation shall be operated and maintained according to the approved application and addendums, this Construction and Operating

Agenda Item # 25d

Permit and the requirements in Title 130, *Livestock Waste Control Regulations*. These documents include operating and maintenance requirements, best management practices for the LWCF and requirements for monitoring, reporting and land application of the waste.

Read and become familiar with these documents, as you will be held responsible for your operation's compliance with these requirements. Violation of Title 130 requirements may result in fines, penalties or removal of the livestock from the operation until compliance is met. You are responsible for preventing any runoff or discharge of livestock waste to waters of the State.

If you have any questions, please contact Kevin Franzluebbbers at (402) 471-6687 or myself at (402) 471-4239.

Sincerely,

Cay Ewoldt, Supervisor
