RE: Dodge County HMGP Property Elevation Project

To Whom it May Concern,

Dodge County is requesting financial assistance through FEMA's Hazard Mitigation Grant Program, to assist homeowners in completing flood risk mitigation measures to their homes in the Special Flood Hazard Area along the Elkhorn River and Platte River systems. All of the homes/parcels in this application are in Dodge County.

As the sub-applicant for these funds, the County Board approved this project on March, 11th 2020, and is committed to funding the local share of this project. These funds will be available for the duration of this project. The homeowners will ultimately be responsible for the local share costs for their property, which may also be partially offset by long-term recovery funds and private foundation funds were available. Dodge County will assist the homeowners throughout the project process and will be the conduit for all documentation and sub-grant processes.

If you have any questions please call Tom Smith, the County's Emergency Management Director, at 402-727-2785. Thank you.

Sincerely,

---
