RE: Dodge County Building Resilient Infrastructure and Community (BRIC) Grant

To Whom it May Concern,

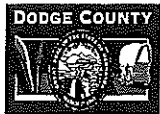

Dodge County is requesting financial assistance through FEMA's BRIC Grant Program, to complete a project scope identifying flood mitigation measures and develop a comprehensive project application to mitigate flood risk along the Platte River within the area of the Platte Township.

As the sub-applicant for these funds, the County Board is committed to funding the local share of this project. These funds will be available for the duration of this project. Dodge County will ultimately be responsible for the local share costs for project, which may also be partially offset by an interlocal agreement between local partners and Community Development Block Grant and other grant funds were available. Dodge County will be the conduit for all documentation and sub-grant processes.

If you have any questions please call Tom Smith, the County's Emergency Management Director, at 402-727-2785. Thank you.

Sincerely,

Chair, Dodge County

Bob Missel, Chairman
Lon Strand, Vice-Chairman
