To Whom it May Concern:

The stakeholders of Smiley's at 306 N Main St would like to remain open to all possible options that may be available. Of course the ideal situation would be to stay at our current location but only if the flood mitigation system were to be put in place. If that is not an option, we are also interested in swapping lots at the new site being considered for the village North of Logan View High School.

I Rich Dartmeyer do not want  
the new town option. The only thing  
I want is the buyout option or to keep  
or sell my property at my own discretion

To whom it may concern,

We were told to express our concerns to you over the propose site for the relocation of the village of Winslow. Until now no one seemed to care what the current neighbors thought about this decision. We, like a lot of others, moved to the country to escape neighbors and the city life. I would rather not live near a village either.

It is our understanding that proper procedures were not followed by the Winslow authorities who were in charge of this matter of dikes and bladders , therefore, the village was flooded. Assuming this to be true, we (the neighbors) would be paying the penalty for Winslow's error. This doesn't seem fair to us.

There is 33 acres for sale off Rosedale Road. Why don't they move there?

Sincerely,

Hilltop Sunrise

Which we will never be able to see again if houses are there
