Highway Superintendent Scott Huppert updated the Board on current projects. Employees are doing some grading and redoing a road for Hooper Township. All bridge inspections have been completed (140 this year); there are two bridges that he lowered the rating to 4 which sends a red flag to the state. One of those bridges has already been stabilized and should be functional for the next few years. Superintendent Huppert said he would like to get the bridges with lower ratings in on a bridge match program that would help fund repairs. He also reported that he recently attended a class for bridge inspectors; he passed the class and renewed his certification. Employees are installing culverts and extensions for farmers. The Yager Road project was shut down because of back ordered culverts. The culvert work is being completed today. Graham Construction will be working on grading and building the road base the remainder of the week and will bring in the machines to lay the concrete next week. Pruss Excavation Co. will begin the Elkhorn River Streambank Repair project at Scribner next week. On the By-pass 275 project in Scribner, County Road F is closed and will be for

approximately 3 weeks; they are building a road over the dike. When this is complete, County Road 13 will be closed, which will hopefully be after the farmers are done with harvest. On the By-pass 30 project, more crossings have been closed to lay concrete at the intersections. The State wants Dodge County to take care of snow removal on Ridge Road in front of the houses. Superintendent Huppert said the contract says as long as there is still construction going on there, the State is still responsible for snow removal. On the By-pass 77 Southeast Beltway project, the northeast exit ramp off new Highway 275 at old Highway 8 will hopefully be open next week. Regarding the American Rescue Plan Act (ARPA) funded projects, Superintendent Huppert said he has the construction and right-of-way plans for County Road 18 and County Road F and they are trying to determine when contractors can start on the Winslow bridge.
