Dodge County Board of Supervisors:

I'm writing to inform you that on 4-27-23 at approximately 11 o'clock the Dodge County Dept of Roads was laying gravel on Queen Ave in front of my property at 213 Queen Ave in Ames. In the process, the truck driver inadvertently hit the overhead powerlines with the bucket of his dump truck and caused several items to be damaged. I am submitting this as written notice that the county will need to pay for the following but not not limited to damage and associated labor for repair:

Two service poles were cracked and replaced by OPPD.
The line from the transformer to the pole was replaced.

From the pole to my building OPPD will not repair the following and I will have an electrician repair:
The line from the pole to the power mast and meter socket.
The power mast.
The meter box and meter.

Any damage caused to the interior electric panel/equipment that is a direct result caused from the disruption and abrupt nature of this event.

Attached is both video evidence and pictures of the event and damaged unrepaired by OPPD by end of day 4-27-23.

Please let me know how and who I need to submit repayment to.

Thank you for your cooperation and understanding on this matter.
