RE: Bowman Farms, Inc. Concentrated Animal Feeding Operation
NDEQID: 71182
Program ID: LWC 5-071
Subject: **Revoking of Construction and Operating Permit**
SW 1/4, SE 1/4, Section 10, Township 20N, Range 08E, Dodge County

Dear Mr. Bowman:

The Nebraska Department of Environmental Quality (Department) has received your letter requesting the Department revoke the Construction and Operating Permit issued to the above referenced concentrated animal feeding operation. A November 28, 2018 site re-inspection conducted by Program Specialist Kevin Franzluebbbers determined that the livestock waste control facilities at your operation have been properly cleaned and closed according to the approved closure plan. Therefore, in accordance with the Nebraska Livestock Waste Management Act (LWMA) and Title 130, *Livestock Waste Control Regulations*, you are not required to maintain the current permits covering your operation. A review of your file indicated that the Construction and Operating Permit described a maximum approved head count of 1,600 head of feeder cattle.

In response to your request, and in accordance with Title 115, *Rules of Practice and Procedure*, the Construction and Operating Permit issued on January 31, 2013 is **hereby revoked**.

As described in Title 115, Chapter 7, this revocation will become final unless a request for a hearing is submitted to the Department within thirty (30) days of receipt of this letter. The request for hearing must conform to the requirements of Title 115 and be filed with the Director, Nebraska Department of Environmental Quality, PO Box 98922, Lincoln, NE 68509-8922. If you have any questions, please contact Kevin Franzluebbbers at (402) 471-6687 or Cay Ewoldt, Supervisor at (402) 471-4239.

Pursuant to a Delegation Memorandum dated August 22, 2016 and signed by the Director, the undersigned hereby executes this document on the behalf of the Director.

Sincerely,

Shelley Schneider,
Water Permits Division Administrator
