RE: Dodge County HMGP Drainage Project-Study

To Whom it May Concern,

Dodge County is requesting financial assistance through FEMA's Hazard Mitigation Grant Program, to conduct a project study to identify drainage issues and develop a comprehensive project to mitigate flood risk along the drainage ditches within the area of the Elkhorn Township.

As the sub-applicant for these funds, the County Board approved this project on February, 12th 2020, and is committed to funding the local share of this project as outlined in an interlocal agreement between Dodge County, Lower Platte North Natural Resources District, and the City of Fremont. These funds will be available for the duration of this project. Dodge County will ultimately be responsible for the local share costs for project, which may also be partially offset by Community Development Block Grant and other grant funds were available. Dodge County will be the conduit for all documentation and sub-grant processes.

If you have any questions please call Tom Smith, the County's Emergency Management Director, at 402-727-2785. Thank you.

Sincerely,
