Dodge County Hwy Dept

Dear Mr. Garcia and Mr. Padilla:

The Nebraska Department of Environment and Energy (NDEE) received information on May 09, 2024, that a septic tank serving the dwelling at 6340 Platte River Road, Ames, Nebraska is discharging untreated septage onto a neighboring property. Nebraska Title 124, Chapter 2, Section 004-004.01 states that an existing septic system must be brought into compliance with current Title 124 regulations and General Permits if the system fails. Additionally, Title 124, Chapter 2, Section 009 states an onsite wastewater treatment system located on property which is not owned by the facility or dwelling using the system must have a properly executed and filed property easement, including provisions for the operation and maintenance of the system, which must be filed with a copy of the system registration.

All work performed on onsite wastewater systems in Nebraska must be conducted by individuals who hold certification from the Department. A searchable list of certified professionals can be found on our website at: https://deq-iis.ne.gov/zs/owt/main_pro.php

Please submit a written response to the NDEE by **July 1, 2024** addressing this matter, including the name of the certified professional contacted to assess the system and a timeline for any repairs or replacement that needs made. If you have any questions, please feel free to contact me at 402/471-4372 or by e-mail at tricia.scott@nebraska.gov.

Sincerely,

Tricia Scott
